9,500+ new construction homes plumbed since 1998

3,500+ homes repiped. Family owned and operated since 1998. Three generations of the Pellechio family. Two active Florida Certified Plumbing Contractor licenses. Best of Cape Coral 2026 — Best Plumbing Contractor.

COMPANY

Founded in Cape Coral in 1998 by brothers Chris and Sam Pellechio with their father. Family owned and operated since 1998: Samuel Pellechio Sr. (mason & general contractor) → Samuel Pellechio Jr. (owner & co-founder) → Aiden Pellechio (office manager, estimating & project management). Office at 951 Pondella Rd, North Fort Myers, FL.

CORE COMPETENCIES — SLAB TO FINAL

Underground / slab layout. Below-slab drain, waste and vent laid to plan, stubbed up and tested before the pour.

Trim / set-out. Fixtures, faucets, appliances and water heater set; system started up.

Final. Final inspection passed and the house turned over with water on.

2nd rough / top-out. In-wall supply and DWV, vents through the roof, tub and valve rough-in.

Water & sewer hookup. Service line from the meter and building sewer to the tap, or septic where there's no sewer.

Estimating & PM. Plan takeoffs, bid scopes, phase scheduling, trade sequencing, permits and inspections.

Phase schedules are coordinated with your superintendent based on project scope, site readiness, material availability, and inspection scheduling.

QUALIFICATIONS

- $2 million general liability coverage
- Bonding available — bonding information on request
- 100% self-performed plumbing work — no sub-to-sub layering
- Procore and Textura experience
- One-year warranty on materials supplied by C&S Plumbing
- Workers' compensation coverage
- OSHA-30 trained
- AIA G702/G703 pay applications
- Ranked in the top 5% of Florida licensed contractors on BuildZoom

Ranking source: BuildZoom contractor profile, https://www.buildzoom.com/contractor/c-s-plumbing-of-lee-inc (third-party ranking, not a state-issued rating; checked 2026-09-29).

CUSTOMER BENEFITS — AFTER THE BUILD

We're here long after construction is complete.

- **Lifetime service discount (homes and commercial properties).** Homes and commercial properties with new-construction plumbing completed by C&S qualify for a lifetime discount on future plumbing service.
- **Complimentary first-year visit (new homes).** New homeowners also receive one complimentary water heater flush and whole-home plumbing inspection during their home's first year. Call 833-PLUMB-IT ext. 0 within 12 months of home completion to request and schedule your complimentary visit.

Customer benefits are separate from warranty terms.

SOUTHWEST FLORIDA CONDITIONS

- **Slab-on-grade in a high water table.** Much of Lee County sits on sandy fill over a shallow water table. Below-slab drain lines have to hold their slope in soil that shifts when it's wet, so bedding, compaction around the pipe, and testing before the pour matter more here than inland.
- **Flood-zone and elevated rebuilds.** On Fort Myers Beach, Sanibel and other coastal lots, post-Ian rebuilds are going up on elevated foundations. Plumbing runs down to grade through the flood zone, so risers, cleanouts and water heaters have to be planned around the design flood elevation and salt air.
- **UEP water & sewer hookups in Cape Coral.** Cape Coral's Utilities Extension Program is bringing city water and sewer to neighborhoods that were on wells and septic. New homes in UEP areas need the right connection at the right time — sewer lateral, water service, irrigation, and septic abandonment where it applies.
- **Pipe material options.** PEX or CPVC water distribution, copper where the spec calls for it, and PVC drain, waste and vent. We price the option on your plans and tell you where the trade-offs are.

SERVICE AREA

Southwest Florida, from Port Charlotte through Naples, including Cape Coral, Fort Myers, Lehigh Acres, Estero, Bonita Springs, Punta Gorda, Port Charlotte.
